

SMART ME 200

Stainless steel indirect cylinder with additional coil for use with multi-energy sources to produce domestic hot water.

- > Ideal for use with renewable energy such as heat pumps, solar, heat recovery and in district heating schemes due to large primary store
- > Reduces legionella risk due to temperature: hot water stored at > 60°C
- > Low maintenance with no anode protection required
- > The carbon steel coil enables this product to be used in a variety of installations including system separation for a heating circuit
- > 5 year warranty* (T&Cs apply)
- > Low standing losses – cylinder comes with thick polypropylene jacket
- > Can provide dual temperature outputs for different circuits such as underfloor heating (low temperature) and DHW (high temperature)
- > Suitable for unvented systems – supplied as a complete package including 3.5 bar mains unvented kit
- > Maximise capacity of the cylinder with DHW mixing valve and 2 port valve supplied as standard
- > Supplied with 3kW immersion heater (6kW option available)
- > Fits through a standard doorway for access to plant room
- > Cost effective solution, simple installation with no de-stratification kit needed and no flue requirements

5 year warranty

Tank-in-tank technology

- > **Fast** heat up
- > **Rapid** recovery
- > **Reduced** footprint
- > **Reduced** scale
- > **Low** storage required
- > **Minimal** heat loss
